

# 2019 DOG CONTROL OFFICERS FOR CHENANGO COUNTY

New York State Department of Agriculture and Markets Law requires that each municipality have an agreement with a sheltering facility to house stray dogs. The municipality itself is responsible for stray dogs in their community.

The Chenango SPCA provides housing for stray dogs for many municipalities in Chenango County. Please see the list below for your Dog Control Officer contact information.

It is illegal for an individual to pickup a stray dog, as well as could be dangerous to yourself, your family, and your other pets. You don't know this animals temperament and if it is healthy or not. The safest (and legal) thing to do is to contact the DCO for your area.
